

PRESS RELEASE – Dec. 1, 2016
Government Relations: 972-624-3108

Main Street traffic switch: Friday, Dec. 2

THE COLONY, Texas — As part of an effort to keep residents informed, officials with the City of The Colony are in continuous contact with representatives from the Texas Department of Transportation regarding the progress of the Main Street Widening Project.

In addition to lane closures, we feel it important to provide residents with notices of traffic switches because lanes may be configured differently than the last time you drove them. Motorists are encouraged to focus on the roadway in order to avoid accidents from being in the wrong lane.

Upcoming or ongoing switches are listed below. *You may need to refresh your browser to view the most-current document.*

Traffic Switch

The following roadwork is scheduled for 9 a.m. Friday, Dec. 2:

- northbound lanes of Main Street, between South Colony Boulevard and North Colony Boulevard, will be switched to the east onto newly paved road.

Please note: Following this switch, motorists traveling west on Nash and Hetherington drives will not be allowed to make left turns onto southbound Main Street until construction of the center median cuts is further along. Also, motorists traveling southbound on Main will not be allowed to make left turns onto Nash or Hetherington. Motorists are encouraged to use North and/or South Colony boulevards to access Blair Oaks as a detour into the adjacent neighborhoods.

During construction, the Engineering Department will also post updates and information regarding the overall progress of this project at <http://thecolonytx.gov/Resident/RoadRepairs.html>, including when and where specific work will take place. In addition, updates can be found on the city's social media and in the bimonthly electronic newsletter. If you have additional questions, you may email Director of Government Relations Brant Shallenburger at bshallenburger@thecolonytx.gov or call 972-624-3108.
